DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 55 is rejected under 35 U.S.C. 102(b) as being anticipated by Ambasz (4,046,422). Ambasz discloses the use of a seat member (figure 1) having a seat back (22), a seat bottom (20), an intermediate portion (119) connected between the seat back and a seat bottom; a bottom support member having a bearing surface (34, column 4) slidably supporting the seat bottom thereon; a seat back support member; a pivot (80, pin) element interposed between the seat back support member and the seat back, wherein the seat back pivots about the seat back support member between a first seat back position and a second seat back position, and wherein pivoting the seat back from the first seat back position to the second seat back position causes the seat bottom to slide along the bearing surface from the first seat bottom position to the second seat bottom.

Allowable Subject Matter

Claims 42-54 are allowed.

Claims 56-68 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 2/9/05 have been fully considered but they are not persuasive.

Applicant's arguments with respect to claim 42-68 have been considered but are moot in view of the new ground(s) of rejection.

In regards to applicant's argument that Ambasz fails to show "*wherein pivoting the seat back from the first position to the second back position causes the seat bottom to slide*", the applicant is directed to the above rejection. The examiner is of the opinion that when the seat back of Ambasz is pivoted, it does cause the seat bottom to slide at a point since the seat bottom and back are connected together with the intermediate portion.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
